

Raising Awareness of the Marketplace – How you can help

English / Aaskiv

A primary goal of the Affordable Care Act is to help the 16% uninsured and eligible Americans gain access to quality, affordable healthcare. Central to this goal is the creation the Health Insurance Marketplace. Through the Marketplace, eligible Americans will be able to enroll in a health plan to get coverage that starts in January 2014.

It's now time to raise awareness of the Marketplace to maximize the number of Americans who enroll during this first open enrollment period beginning October 1, 2013.

What is the Marketplace?

The Marketplace is a destination where consumer can compare insurance options in simple, easy to understand language. At the Marketplace, consumers will be able to compare insurance options based on price, benefits, quality and other factors with a clear picture of premiums and cost-sharing amounts to help them choose the insurance that best fits their needs.
